Baldwin Type

Old Style with machine screw rail
Use 12-F Flange

New slotted type heels allows adjustment from 53mm to 62mm

Knabe Types Use 13-F Flange

How to Order:

1. Check your original sample Wippen for position of Wippen Flange in relation to Jack Flange. If Wippen Flange is 4mm above Jack Flange, use **TBK** Wippen body (pictured above). If Wippen Flange and Jack Flange are in line, use **TUW** (05 020).
2. CHOOSE MATCHING WIPPEN FLANGE (Below): #**13F** fits Knabes and Chickering; #**12F** fits Old Baldwin Type with machine screw rails; #**14F** fits Chickering (replaces Brass Type); #**18F** Long flange; #**19F** fits Aeolian; or #**20F** Standard Flange.
3. CHOOSE WIPPEN HEEL (Above): 20mm Long; 16mm Short; or 12mm Extra Short.
4. PLACE YOUR ORDER: Example - 1 set TBK Wippen bodies, 1 set Baldwin Flanges (12F) and 1 set Extra Short Heels. Makes Baldwin Old Style Wippen as pictured Above.
5. Sets are **NOT** assembled, #18½ center pins are provided to install Wippen Flanges. Glue Heels after Wippens are mounted, with action upside down.
6. We can match your sample and pre-assemble the set. Please call for quote.

A few words about Tokiwa.....

The Tokiwa Mfg. Co. Ltd. has been owned and operated by the Sugimoto family for over five decades in the center of the Japanese piano industry, Hamamatsu Japan

Originally the primary function of Tokiwa was providing grand piano keyboards and actions for use by manufacturers of new pianos in Japan.

In 1979 Tokiwa began making some parts for export to the American market. These were first distributed in the U.S.A. by Mr. George Defebaugh through his company "Superior Imports".

In 1991 Mr. Don Morton acquired "Superior Imports" and continued the distribution of Tokiwa products through his company "Pacific Piano Supply Co." Since then, the Tokiwa products have expanded from a few types of shanks and flanges and grand wippens, to the over one hundred items shown in this catalog.

Today, Tokiwa is a unique and valuable asset to the American technician. By specializing in small quantity production runs of a large variety of parts made exclusively for the repair and restoration trade, Tokiwa is unlike any other action parts maker! While other action parts makers primary customers are piano manufacturers, Tokiwa's biggest and best customer is YOU, the piano rebuilders.

This catalog contains the largest selection of parts in the world available for the classic American grand and upright pianos. All action parts are made to the highest standards of quality and materials, and are designed by American technicians who are using the products daily in the restoration and rebuilding of fine old pianos. Besides action parts, Tokiwa is also providing a variety of cloths and felts for dampers and action.

COMING SOON – SAMPLE PARTS KITS- by piano type

Due to the greatly expanded inventory of parts and products, it is no longer practical to provide one kit that has all of the items in this catalog.

*** **Grand Shanks & Flanges** (contains all of the Grand Shanks & Flanges)

FOR OLDER AMERICAN GRAND PIANOS

*** **Steinway and Mason & Hamlin Kit** (contains all action parts for these Grands)

*** **Universal Grand Wippen Kit** (contains all of the types of Wippens & Flanges)

FOR EUROPEAN AND ASIAN GRAND PIANOS

*** **Hamburg Steinway Kit** (contains all action parts for these Grands)

*** **German and Asian Kit** (contains Renner and Yamaha type Grand Parts)

FOR UPRIGHT PIANOS

*** **Full sized Upright Kit** (contains all upright action parts – Butts & Wippens)

*** **Spinnet and Console Kit** (contains all of the parts to replace plastic actions)
